

NELVOY SUSHEEL REDDY

DATA ANALYST

PROFESSIONAL SUMMARY

Quantitative Business Analyst with 2+ years of experience in SQL-driven analytics, statistical modeling, and business intelligence, translating complex datasets into actionable insights to identify risk, optimize business processes, and support strategic decision-making through clear, data-driven storytelling.

EMPLOYMENT HISTORY

FREELANCE DATA ANALYST

Aug 2025 - Present

Remote

- Developed interactive financial and operational dashboards for decision-makers, improving reporting efficiency by 75%.
- Built forecasting and budgeting data models and automated recurring reports, saving 98 hours per month.
- Performed trend, variance, and comparative analyses to guide operational and commercial strategy with measurable insights.
- Cleaned, validated, and transformed structured and semi-structured datasets to ensure accuracy, consistency, and reproducibility.
- Automated data preparation and reporting workflows using analytics tools, reducing manual effort and improving turnaround time.

DATA ANALYST INTERN

Jan 2025 - Jul 2025

RightClick.ai

Boston, MA

- Acted as primary analytics partner translating ambiguous business questions into structured, data-driven analysis to guide decisions.
- Applied advanced SQL and Python to perform large-scale data discovery and recurring statistical analyses for operational insights.
- Built proof-of-concept analyses to detect anomalies and risk patterns, improving data accuracy by 25%.
- Developed interactive BI dashboards in Tableau and Power BI to support operational and strategic decision-making.
- Collaborated with data engineering to optimize data warehouse pipelines, reducing reporting latency by 20%.

SKILLS

Advanced SQL, Statistical Analysis, Hypothesis Testing, Trend Analysis, Forecasting, Anomaly & Risk Detection, Python, R, Power BI, Tableau, Matplotlib, KPI & Dashboard Development, Data Storytelling, Data Warehousing Concepts, ETL Pipelines, Jupyter Notebook, RStudio, AWS, Exploratory Data Analysis, Ad-hoc & Recurring Reporting, Proof-of-Concept Analysis, Stakeholder Engagement, Cross-functional Collaboration, Executive Presentations, Requirements Translation.

ADDITIONAL INFORMATION

PROJECTS

Risk & Anomaly Detection Using Regulatory Data

- Analyzed 580K+ records to detect risk patterns and abnormal behavior linked to adverse events
- Applied statistical analysis and tree-based models to surface high-risk entities and trends
- Built visual summaries to communicate insights to non-technical stakeholders, supporting regulatory decision-making

Global Air Pollution and Child Mortality Prediction

- Conducted cross-country analysis (2010–2022) to evaluate long-term trends and key drivers of child mortality
- Applied regression and tree-based models to quantify impact of PM2.5, GDP, and urbanization
- Communicated findings through visual storytelling to support policy and investment decisions

Online Retail Consumer Preferences Analysis

- Performed text analysis and NLP to understand customer behavior and product sentiment
- Identified regional preference patterns that informed pricing and marketing strategy, increasing sales by 12%
- Delivered insights through dashboards and visual summaries for business stakeholders

Statistical Analysis of Boston Housing Market Trends

- ◆ Analyzed the 2023 Boston Housing dataset to identify key economic and spatial factors influencing property prices
- ◆ Conducted exploratory data analysis (EDA) and applied regression techniques to uncover pricing patterns and predict market trends
- ◆ Delivered 20% improvement in forecasting accuracy, supporting data-driven real estate investment decisions

EDUCATION

MASTERS IN ANALYTICS – STATISTICS, SQL, BUSINESS INTELLIGENCE	Sep 2023 - Dec 2025
<i>Northeastern University</i>	<i>Boston, USA</i>
BACHELOR OF BUSINESS ADMINISTRATION	Jun 2020 - May 2023
<i>GITAM Deemed to be University</i>	<i>India</i>

CERTIFICATIONS

R PROGRAMMING: ADVANCED ANALYTICS FOR DATA SCIENCE
<i>Udemy</i>
THE ULTIMATE MYSQL BOOTCAMP: FROM BEGINNER TO EXPERT
<i>Udemy</i>
INTRODUCTION TO ANALYTICS
<i>Northeastern University</i>
DATA SCIENCE MATH SKILLS
<i>Coursera</i>
